CAPITAL

Equity Opportunities Team

- Portfolio Manager:
Colin R. Ducharme, CFA®
- Long-Term Experience and Continuity Among the Investment Team
- Average Investment Experience of 18 Years
- Based in Virginia Beach, Virginia

Philosophy

Seeks Positions Featuring Attractive and Sustainable Multi-Year Return Profiles Underpinned by Businesses Perceived to Possess:

- Robust Financial Returns and Visible Reinvestment Opportunities
- Talented Management
- Attractive Valuation

Process

- Qualitative and Quantitative Screens Identify Opportunities
- Emphasis on Proprietary Primary Research and Due Diligence
- Candidates and Holdings Continuously Vetted by Investment Team

Structure

- Conviction-Weighted Portfolio of 15-30 Securities
- Tax Efficient Low Turnover Typically Less than 25%

Sector Allocation

¹The performance inception date is 12.31.2015.
²Effective 01.01.2021, the maximum bundled external platform fee is 2.52%. Actual fees may vary by size and type of portfolio. Performance is preliminary and is annualized for periods longer than one year. Net of fees performance returns are presented net of the SMA bundled fee, which includes all charges for trading costs, advisory services, portfolio management, custody and other administrative fees. "Pure" Gross of fees performance returns do not reflect the deduction of any fees including trading costs: a client's return will be reduced by the management fees and other expenses it may incur. Investment management fees are described in Sterling's Form ADV 2A. Performance reflects the reinvestment of interest income and dividends and realized capital gains. The performance presented represents past performance and is no guarantee of future results. Performance is compared to an index: however, the volatility of an index varies greatly and investments cannot be made directly in an index. Market conditions vary from year to year and can result in a decline in market value due to material market or economic conditions. Please refer to the attached GIPS Composite Report for additional disclosures. The benchmark is the Russell 1000[®] Growth. Sources: Russell Investments; FactSet; Sterling Capital Management Analytics.

²Turnover is for the last 12 months. Portfolio characteristics totals may not equal 100% due to rounding. Specific securities identified and described do not represent all of the securities purchased, sold or recommended to clients. There are no assurances that securities identified will be profitable investments. The securities described are neither a recommendation nor a solicitation.

The Russell 1000® Growth Index measures the performance of the large-cap growth segment of the U.S. equity universe. It includes those Russell 1000® companies with higher price-to-book ratios and higher forecasted growth values. The Russell 1000® Growth Index is constructed to provide a comprehensive and unbiased barometer for the large-cap growth segment. The index is completely reconstituted annually to ensure new and growing equities are included and that the represented companies continue to reflect growth characteristics.

The **Chartered Financial Analyst® (CFA)** charter is a graduate-level investment credential awarded by CFA Institute — the largest global association of investment professionals. To earn the CFA charter, candidates must: 1) pass three sequential, six-hour examinations; 2) have at least four years of qualified professional investment experience; 3) join CFA Institute as members; and 4) commit to abide by, and annually reaffirm, their adherence to the CFA Institute Code of Ethics and Standards of Professional Conduct.

Sterling Capital Management – Focus Equity SMA Composite

January 1, 2016 – December 31, 2021

Description: Consists of all discretionary separately managed wrap Focus portfolios. Sterling's Focus portfolio investments are flexible and may span growth and value, large- and small-capitalization companies, and various capital forms including equity, debt, and derivatives. The strategy seeks positions featuring sustainable, multi-year return profiles underpinned by businesses perceived to possess attractive financial returns, visible reinvestment opportunities, and talented management.

Sterling Capital Management LLC claims compliance with the Global Investment Performance Standards (GIPS®) and has prepared and presented this report in compliance with the GIPS standards. Sterling Capital Management LLC has been independently verified for the periods 01/01/01 to 12/31/21. The verification report(s) is/are available upon request. A firm that claims compliance with the GIPS standards must establish policies and procedures for complying with all the applicable requirements of the GIPS standards. Verification provides assurance on whether the firm's policies and procedures related to composite and pooled fund maintenance, as well as the calculation, presentation, and distribution of performance, have been designed in compliance with the GIPS standards and have been implemented on a firm-wide basis. Verification does not provide assurance on the accuracy of any specific performance report. GIPS® is a registered trademark of the CFA Institute. CFA Institute does not endorse or promote this organization, nor does it warrant the accuracy or quality of the content contained herein.

Please refer to the slide titled "Performance" for the one- and five-year returns of the composite.

Notes:

1. Sterling Capital Management LLC (SCM) is a registered investment advisor with the SEC. Registration does not imply a certain level of skill or training. Sterling manages a variety of equity, fixed income and balanced assets. Prior to January 2001, Sterling was a wholly owned subsidiary of United Asset Management (UAM). In January 2001, Sterling Capital Management LLC purchased all the assets and business of Sterling Capital Management Company from UAM to become an employee owned firm. In April 2005, BB&T Corporation purchased a majority equity ownership stake in Sterling Capital Management LLC. In October 2010, the management group of Sterling Capital entered into an agreement with BB&T Corporation that reduced and restructured management's interest in Sterling Capital Management. Additionally, BB&T Asset Management merged into Sterling Capital Management. In January 2013, CHOICE Asset Management firm merged into Sterling Capital Management. "Percent of Firm Assets" and "Total Firm Assets" prior to 2013 are for CHOICE Asset Management. In August 2015, eight new employees joined Sterling Capital Management via Stratton Management Corporation following the close of BB&T's purchase of Susquehanna Bancshares. In December 2019, BB&T Corporation and SunTrust Banks, Inc. Holding Company merged as equals to form Truist Financial Corporation. Sterling Capital Management LLC is a wholly owned subsidiary of Truist Financial Corporation. In August 2020, new employees joined Sterling Capital Management via the Investment Advisory Group of SunTrust Advisory Services. This reorganization aligns all of the discretionary fixed income asset management activities within Truist under Sterling.
2. Colin Ducharme, CFA, has managed the portfolio since inception. No alterations of composites, as presented herein, have occurred due to changes in personnel or other reasons at any time.
3. Inception date of composite: December 31, 2015. Creation date: August 3, 2018. Effective 3/31/20, the appropriate benchmark for this composite was changed retroactively to inception from the Russell 3000 Index to the Russell 1000 Growth Index. The Russell 1000@ Growth Index measures the performance of the large cap growth segment of the US equity universe. It includes those Russell 1000@ companies with higher price-to-book ratios and higher forecasted growth values. The index is reconstituted annually. Total return includes price appreciation/depreciation and income as a percent of original investment. A complete list of all of SCM's composites and SCM's broad distribution pooled funds and their descriptions is available upon request. Policies for valuing investments, calculating performance, and preparing GIPS Composite Reports are available upon request.
4. Performance reflects reinvested interest income and dividends and realized and unrealized capital gains and losses. All portfolios utilize trade-date and accrued income accounting. Valuations and performance are reported in U.S. dollars. Periodic time weighted returns are geometrically linked. Returns are not calculated net of non-reclaimable withholding taxes due to immaterial dollar amounts. Beginning July 1, 2020, portfolio performance is calculated daily including cash flows. Daily calculations are geometrically linked to create time weighted returns. Composite returns are asset weighted using the beginning market value and time weighted return of the portfolios. From September 1, 2018 to July 31, 2020 portfolio returns were calculated using the Modified Dietz Method and revalued for cash flows greater than 10%. Composite returns are calculated monthly by weighting the individual portfolio returns using beginning of period market value plus weighted cash flows. From inception through August 31, 2018, composite returns were asset weighted using the average capital base method that reflects both beginning market value and cash flows and used the aggregate method. This method aggregates market values and cash flows for all the accounts and treats the composite as if it were one account. Composites were revalued at cash flows greater than 5%.
5. "Pure" gross of fees returns are presented as supplemental information. Effective January 1, 2021, the net of fee return reflects the maximum bundled external platform fee of 2.52%. From September 1, 2018 to December 31, 2020, the net of fee return reflects actual SMA fee of the individual account. From inception through August 31, 2018, gross of fee returns reflect the deduction of trading costs. Net performance returns were calculated by subtracting the applicable SMA fee (2.57% on an annual basis or 0.21% per month) on a monthly basis from the gross return. Beginning September 1, 2018, "pure" gross of fee returns do not reflect the deduction of any fees including trading costs. The SMA fee includes all charges for trading costs, portfolio management, custody, administrative fees, and foreign withholding taxes. The maximum SMA or bundled external platform fee is 2.52% annually and includes Sterling's actual management fee of 0.27%. Sterling's actual management fees are 27 basis points annually. From 12/31/15 to 8/31/18 the composite was comprised 100% of separate accounts. Beginning 9/01/18 the composite has been comprised 100% of wrap fee portfolios.
6. The annual composite dispersion presented is measured by an asset-weighted standard deviation calculation method of all portfolios in the composite for the entire year, and is calculated using gross of fee returns. It is not meaningful when there have been less than six portfolios in composite for entire calendar year. The three year annualized standard deviation measures the variability of the composite and benchmark returns over the preceding 36 month period. The composite 3-year standard deviation is calculated using gross of fee returns. It is not required to be presented for annual periods prior to 2011 or when a full three years of composite performance is not yet available.
7. The performance presented represents past performance and is no guarantee of future results. Stock market conditions vary from year to year and can result in a decline in market value due to material market or economic conditions.
