¹Annualized. Source: Morningstar. The performance presented represents the returns of the listed index. The volatility of an index varies greatly and investments cannot be made directly in an index. Market conditions vary from year to year and can result in a decline in market value due to a material change in market or economic conditions. The performance is past performance and is not a guarantee for future results.

Sterling Capital Advisory Solutions Monthly Update

August 2024

Equity Market Highlights	Fixed Income Market Highlights
 The MSCI ACWI IMI Index returned 2.06% in July despite weakness in the U.S. large-cap growth market segment. A better-than-expected June U.S. Consumer Price Index (CPI) report led to a rotation out of U.S. large cap artificial intelligence (AI)-focused companies into U.S. small caps (Russell 2000[®] Index +10.16%), international developed markets (MSCI World ex USA IMI Index +3.47%), and value (MSCI ACWI Value Index +4.35%). The Russell 2000 Index (+10.16%) outperformed the Russell Top 200[®] Index (+0.56%) by 960 basis points (bps) in July, which represented the third largest monthly outperformance differential vs. large caps since 1979. U.S. large-cap growth (Russell Top 200[®] Growth Index -1.95%) was the worst-performing market segment, while U.S. small-cap value (Russell 2000[®] Value Index +12.19%) was the top-performing segment. Utilities and financials were the top- performing global equity sectors in July, while information technology and communication services were the only sectors to produce negative returns. In aggregate, actively-managed U.S. small-cap strategies have generated outperformance year-to-date while actively-managed U.S. large-cap blend and mid-cap growth strategies have underperformed. 	 The broad market, as represented by the Bloomberg U.S. Aggregate Bond Index, returned 2.34% over the month of July. Within the opportunity set, for the third consecutive month, agency mortgage-backed securities (MBS) were the top performers, up 2.64%, followed by U.S. credit (+2.35%) and U.S. governments (+2.17%). While still positive, global Treasuries exU.S. were the bottom performers, returning +1.60%, followed by U.S. TIPS (+1.78%) and emerging market debt (+1.85%). 10-year government bond yields of select countries moved lower month- over-month with the largest decrease coming from yields in Italy which declined by 42 bps. Other global 10-year yields that declined over the month were France (declined by 25 bps), the U.K. (declined by 17 bps) and Germany (declined by 16 bps). The yield on the 10-year U.S. Treasury declined by 32 bps from 4.37% to 4.05%. Municipal/Treasury ratios at the three-year tenor and beyond moved higher during the month of July. Seven-year ratios increased the most, up 4.82%. Ratios remain below five-year averages.
 On a rolling five-year basis, U.S. growth outperformance relative to value increased from the previous month. Rolling five-year growth returns have consistently been ahead of value returns since 2017.

Industrial Production and Industrial Productivity data is as of 06.30.2024. Source: FactSet.

Data is as of 07.31.2024. Source: FactSet.

- Following slower growth in the first quarter, U.S. GDP growth rebounded in the second quarter, taking year-over-year growth above 3% based on initial estimates. Growth in Europe has shown mild improvement but continues to lag, while growth in Japan is negative.
- The U.S. unemployment rate ticked higher for the fifth consecutive month in July to 4.3%.
- U.S. inflation continued to moderate in June but year-over-year inflation remains above long-term targets of the Fed. Inflation has slowed from high levels in Europe, but inflation in Japan moved higher in June.
- U.S. industrial production growth continued to recover in June, bringing year-over-year growth to 1.6%. Year-over-year U.S. labor productivity growth remains strong at 2.7% following solid second quarter growth.

U.S. Economic Indicators

Leading

Coincident

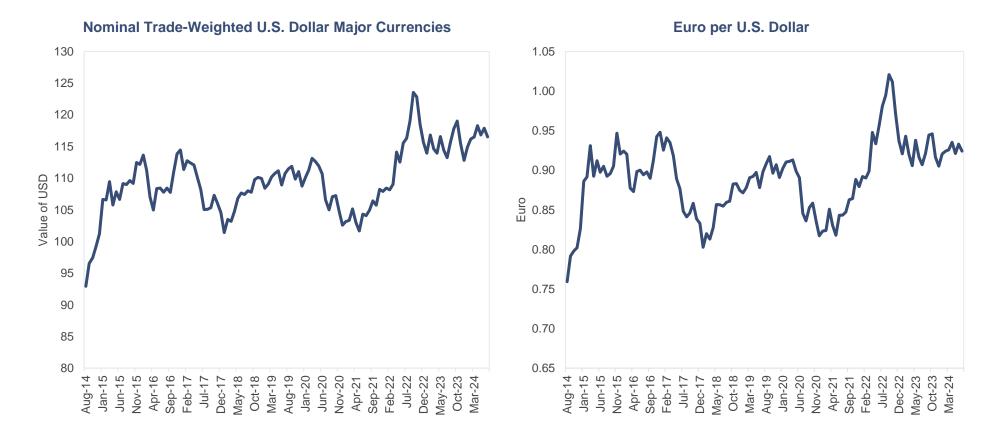

Lagging

Initial Jobless Claims	 In the week ending 08.02.2024 the four-week moving average of Initial Jobless Claims was 240,750 an increase of 2,500 from the previous week's revised average.
Manufacturing	 ISM Manufacturing registered 46.8% in July, a -1.7% decrease from the previous reading. A reading below 50.0% indicates contraction. ISM Manufacturing New Orders registered 47.4% in July, down -1.9% from the previous reading. ISM Non-Manufacturing registered 51.4% in July, a 2.6% increase over the previous reading.
Housing/Construction	• Building permits were up 0.97% in June and have decreased -2.61% over the past year.
Consumer Confidence	• The Consumer Confidence Index increased to 100.3 compared to 97.8 in the previous month.
Nonfarm Payrolls	 Total Nonfarm Payroll employment increased by 395,000 in June while the unemployment rate increased to 4.1%.
Industrial Production	Industrial Production increased 0.64% in June and increased 1.58% over the past year.
Personal Income	• Real Disposable Personal Income increased 0.44% in June and increased 1.04% over the past year.
Ratio of Consumer Installment Credit to Personal Income	• Real Disposable Personal Income decreased -0.1% in June and decreased -2.5% over the past year. Consumer borrowing tends to lag improvements in personal income by many months because people tend to remain hesitant to take on new debt until they are sure that their improved income level is sustainable.
Inflation	 CPI (All Items) decreased -0.05% in June and increased 2.98% over the past year. CPI (Core) increased 0.23% in June and increased 3.28% over the past year.

Municipal/Treasury Yield Ratios Over The Last 5 Years

Data is as of 07.31.2024. Sources: Thompson Reuters; Sterling Capital Management Analytics.

 The broad market, as represented by the Bloomberg U.S. Aggregate Bond Index, returned 2.34% over the month of July. Within the opportunity set, for the third consecutive month, agency mortgage-backed securities (MBS) were the top performers, up 2.64%, followed by U.S. credit (+2.35%) and U.S. governments (+2.17%). While still positive, global Treasuries ex.-U.S. were the bottom performers, returning +1.60%, followed by U.S. TIPS (+1.78%) and emerging market debt (+1.85%).

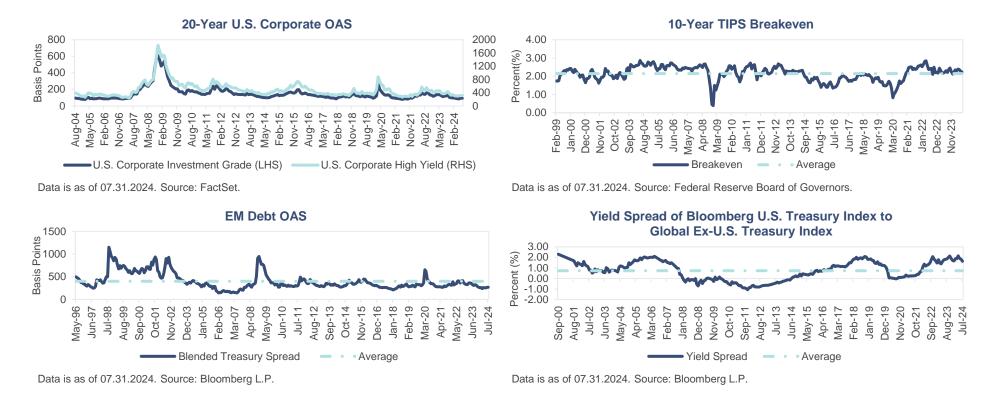

10-year government bond yields of select countries moved lower monthover-month with the largest decrease coming from yields in Italy which declined by 42 bps. Other global 10-year yields that declined over the month were France (declined by 25 bps), the U.K. (declined by 17 bps) and Germany (declined by 16 bps). The yield on the 10-year U.S. Treasury declined by 32 bps from 4.37% to 4.05%.

 Municipal/Treasury ratios at the three-year tenor and beyond moved higher during the month of July. Seven-year ratios increased the most, up 4.82%. Ratios remain below five-year averages.

Fixed Income Spreads and TIPS Breakeven

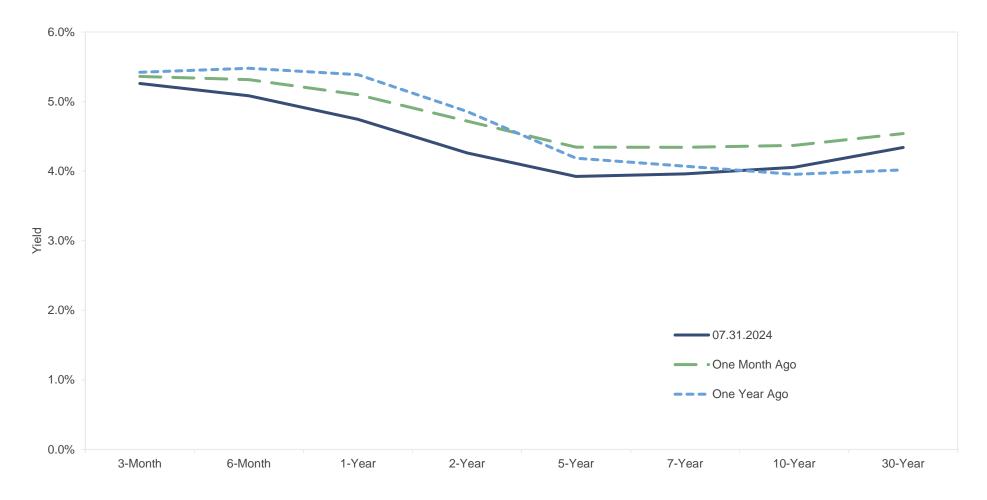

- Investment-grade and high yield corporate bond spreads were little changed in July and remain well below long-run averages.
- 10-year TIPS breakeven rates declined slightly in July as inflation data continued to moderate.
- Emerging Market (EM) Debt credit spreads increased in July but remain well below the historical average. The yield spread of U.S. to Global Treasuries
 declined in July for the third consecutive month.

TIPS = Treasury Inflation-Protected Securities.

Core Consumer Price Index (CPI): a measure of the aggregate price level in an economy, excluding certain volatile items.

Consumer Confidence Index (CCI): measures what consumers are feeling about their expected financial situation, whether that's optimistic or pessimistic.

Option Adjusted Spread (OAS): A bond's yield spread over comparable maturity government bonds, adjusted for any embedded options.

Real Disposable Personal Income: the amount of money that an individual or household has to spend or save after federal, state, and local taxes and other mandatory charges are deducted.

Real GDP: Real gross domestic product (GDP) is an inflation-adjusted measure that reflects the value of all goods and services produced by an economy in a given year, expressed in base-year prices.

Eurozone: a geographic area that consists of the European Union (EU) countries that have fully incorporated the euro as their national currency.

Nonfarm payroll refers to the number of jobs in the private sector and government agencies. It excludes farm workers, private household employees, proprietors, non-profit employees, and actively serving military.

Revenue-to-Firm Value: Total Index Revenues of the past 12 months divided by the sum of equity market value and the value of total debt. This is a measure of total sales generated on the total value (debt plus equity) of firms in the index.

TIPS Breakeven: The inflation rate implied by the spread in yield between U.S. TIPS (Treasury Inflation Protected Securities) and nominal U.S. Government Bonds of equal maturity.

U.S. 3-Year Real Revenue Growth, Russell 3000 Non-Financials: For the Russell 3000 excluding financial firms, the percentage change in trailing 12-month inflation adjusted revenue over 12-month inflation adjusted revenue three years prior.

U.S. Cyclically Adjusted Earnings Yield: The 10-year average of annual, inflation adjusted earnings divided by the current inflation adjusted price of the S&P 500 index. This measure is the inverse of the Shiller CAPE Ratio.

YOY U.S. Productivity Growth: The year-over-year growth in real U.S. output produced per hour worked for non-farm workers.

Capitalization/Style Returns: Capitalization/Style returns are based on the S&P Indexes. All values are cumulative total return for stated period including the reinvestment of dividends. The indexes used from left to right, top to bottom are as follows: S&P 500 Value Index, S&P 500 Index, S&P 500 Growth Index, S&P Mid Cap 400 Value Index, S&P Mid Cap 400 Index, S&P Mid Cap 400 Growth Index, S&P Small Cap 600 Value Index, S&P Small Cap 600 Index, S&P Small Cap 600 Growth Index. The S&P 500[®] Index is a readily available, carefully constructed, market-value-weighted benchmark of common stock performance. Currently, the S&P[®] Composite includes 500 of the largest stocks (in terms of stock market value) in the United States; prior to March 1957 it consisted of 90 of the largest stocks. The S&P Midcap 400 is designed to measure the performance of the middle capitalization sector of the U.S. equities market. This market capitalization weighted index was created in June of 1991 and consists of 400 domestic stocks from the NYSE, NASDAQ, and AMEX chosen for market size, liquidity and industry group representation. The S&P Small Cap 600 is designed to measure the performance of the U.S. equities market. This index consists of 600 domestic stocks chosen for market size, liquidity, (bid-asked spread, ownership, share turnover and number of no trade days) and industry group representation. The S&P Style indices measure growth and value along two separate dimensions, with three factors are 3 Year Change in Earnings per Share over Price per Share, 3 Year Sales per Share Growth Rate, and Momentum. The Value factors are Book Value to price Ratio, Earnings to Price Ratio.

Index Definitions & Disclosures

A Note on Indices: The volatility of an index varies greatly; all indices are unmanaged and investments cannot be made directly in an index. Indices are shown for illustrative purposes only and do not represent the performance of any specific investment. The indices selected by Sterling Capital Management to measure performance are representative of broad asset classes. Sterling Capital Management retains the right to change representative indices at any time.

The Bloomberg Emerging Markets Hard Currency Aggregate Index is a flagship hard currency Emerging Markets debt benchmark that includes USD-denominated debt from sovereign, quasisovereign, and corporate EM issuers.

The **Bloomberg Global Treasury Ex U.S. Hedged Index** is comprised of securities issued by developed ex. U.S. and emerging market governments. The index is hedged against constituent currencies versus the U.S. dollar.

The **Bloomberg U.S. Aggregate Bond Index** is an unmanaged index composed of securities that are SEC-registered, taxable, and dollar denominated. The index covers the U.S. investment grade fixed rate bond market, with index components for government and corporate securities, mortgage pass-through securities, and asset-backed securities. It is not possible to invest in the Bloomberg U.S. Aggregate Bond Index, which is unmanaged and does not incur fees and charges.

The Bloomberg U.S. Corporate High Yield Index measures the U.S. corporate market of non-investment grade, fixed-rate corporate bonds. Securities are classified as high yield if the middle rating of Moody's, Fitch, and S&P is Ba1/BB+/BB+ or below.

The **Bloomberg U.S. Credit Index** measures the investment grade, U.S. dollar-denominated, fixed-rate, taxable corporate and government related bond markets. It is composed of the U.S. Corporate Index and a non-corporate component that includes foreign agencies, sovereigns, supranationals and local authorities.

The Bloomberg U.S. Government Index is comprised of securities issued by the U.S. government and its agencies with at least one year until final maturity.

The **Bloomberg U.S. MBS Index** covers the mortgage-backed pass-through securities of Ginnie Mae (GNMA), Fannie Mae (FNMA), and Freddie Mac (FHLMC). It is formed by grouping the universe of individual fixed rate MBS pools into generic aggregates.

The **Bloomberg U.S. Treasury Inflation-Linked Bond Index** (Series-L) measures the performance of the U.S. Treasury Inflation Protected Securities (TIPS) market. Federal Reserve holdings of U.S. TIPS are not index eligible and are excluded from the face amount outstanding of each bond in the index.

The **Bloomberg Commodity Index** and related sub-indices are composed of futures contracts on physical commodities and represents 22 separate commodities traded on U.S. exchanges, with the exception of aluminum, nickel and zinc.

Bloomberg L.P: "Bloomberg[®]" and the Bloomberg indices are service marks of Bloomberg Finance L.P. and its affiliates, including Bloomberg Index Services Limited ("BISL"), the administrator of the index (collectively, "Bloomberg") and have been licensed for use for certain purposes by Sterling Capital Management LLC and its affiliates.
