Sterling Capital Advisory Solutions Monthly Update

July 2026

Equity Market Highlights	Fixed Income Market Highlights
- Global equities, as defined by the MSCI ACWI IMI, fell 0.61% in June, with key developments during the month including a ceasefire agreement between the U.S. and Iran, the long-anticipated SpaceX initial public offering (IPO), and a somewhat hawkish tone from Federal Reserve (Fed) Chair Kevin Warsh during his first Federal Open Market Committee (FOMC) meeting. U.S. equities (Russell 3000® Index -0.31%) outperformed international markets (MSCI ACWI ex USA IMI -1.03%), and developed markets (MSCI World IMI -0.47%) outperformed emerging markets (MSCI EM IMI -1.60%). Value (MSCI ACWI Value Index -0.52%) outperformed growth (MSCI ACWI Growth Index -1.07%), and small caps (MSCI ACWI Small Cap Index +0.99%) outperformed large caps and mid caps (MSCI ACWI -0.80%). Health care was the top-performing sector in June, while communication services was the worst-performing sector. - Active manager relative performance has been mixed year-to-date. Emerging markets and U.S. small cap value managers have outperformed on average, while U.S. large blend and U.S. mid cap growth managers have underperformed on average. - On a rolling 5-year basis, U.S. growth outperformance relative to value fell in June. Although the gap between growth and value returns has closed in recent periods, rolling 5-year growth returns have consistently been ahead of value returns since 2017.	- The broad bond market, as represented by the Bloomberg U.S. Aggregate Bond Index, returned 0.24% in June, bringing its one-year return to 3.79%. For the month, of the Aggregate Index's largest components, U.S. Government securities (+0.28%) was the top performer, followed by Agency Mortgage-Backed Securities (MBS) (+0.22%) and U.S. Credit (+0.20%). Out-of-benchmark exposures to high yield and emerging market debt returned 0.27% and 0.56%, respectively. - Overseas for the month of June, 10-year government bond yields of select countries were lower, with 10-year yields in Germany lower by 11 basis points (bps), Italy (lower by nine bps), the U.K. (lower by eight bps), and France (lower by four bps). Domestically, the yield on the 10-year Treasury was unchanged at 4.44% over the month. - The Municipal/Treasury ratio moved lower in June, led by 2-year ratios which declined by nearly 4%. With June's decline, ratios are below its 5-year average.

Global Economic Snapshot

YOY Real GDP Growth (\$U.S.)

U.S., Japan, and Eurozone data is as of 03.31.2026. Source: FactSet.

YoY U.S. Industrial Production and Productivity

Industrial Production as of 05.31.2026. Industrial Productivity data as of 03.31.2026. Source: FactSet.

Core Consumer Price Index (YoY Growth)

U.S. & Eurozone data is as of 06.30.2026. Japan data is as of 05.31.2026. Source: FactSet. The sudden increase in Japan CPI growth in 2014 coincided with an increase in national sales tax that impacted final price levels.

U.S. - Unemployment Rate

Data is as of 06.30.2026. Source: FactSet.

- Updated estimates of first quarter U.S. growth took year-over-year estimated gross domestic product (GDP) growth to 2.7%. Growth in Europe and Japan, however, has recently moved lower to well below 1%.
- The U.S. unemployment rate ticked down to 4.2% in June despite weaker-than-expected growth in nonfarm payrolls.
- Core inflation was lower than expected in June, bringing year-over-year U.S. core inflation down to 2.8%.
- Year-over-year U.S. industrial production growth increased to 1.7% in May, turning higher after a dip in the first quarter. Year-over-year U.S. labor productivity growth increased to 2.8% in the first quarter, an increase of 0.3% over the prior quarter.

U.S. Economic Indicators

Leading	Initial Jobless Claims	In the week ending 07.02.2026, the four-week moving average of Initial Jobless Claims was 222,000, a decrease of 3,250 from the previous week's revised average.
	Manufacturing	- ISM Manufacturing registered 53.3% in June, a 0.7% decrease over the previous reading. A reading below 50.0% indicates contraction. - ISM Manufacturing New Orders registered 56.0% in June, down 0.8% from the previous reading. - ISM Non-Manufacturing registered 54.0% in June, a 0.5% decrease over the previous reading.
	Housing/Construction	Building permits were down 0.91% in May and have decreased 0.42% over the past year.
Coincident	Consumer Confidence	The Consumer Confidence Index increased to 91.2 compared to 90.6 in the previous month.
	Nonfarm Payrolls	Total Nonfarm Payroll employment increased by 129,000 in May while the unemployment rate was flat at 4.3%.
	Industrial Production	Industrial Production increased 0.14% in May and increased 1.67% over the past year.
	Personal Income	Real Disposable Personal Income increased 0.25% in May and increased 0.02% over the past year.
	Ratio of Consumer Installment Credit to Personal Income	Real Disposable Personal Income decreased 0.7% in May and decreased 1.6% over the past year. Consumer borrowing tends to lag improvements in personal income by many months because people tend to remain hesitant to take on new debt until they are sure that their improved income level is sustainable.
Lagging	Inflation	- CPI (All Items) increased 0.47% in May and increased 4.17% over the past year. - CPI (Core) increased 0.21% in May and increased 2.82% over the past year.

Data is as of 06.30.2026. Source: Bloomberg L.P.

Data is as of 06.30.2026. Source: Bloomberg L.P.

- Investment-grade and high yield credit spreads moved mildly higher in June but are well below long-run averages.
- 10-year TIPS breakeven rates moved lower in June as inflation began to show signs of moderation. Breakeven inflation rates are near their long-term average.
- Emerging market debt credit spreads moved mildly lower again in June, further below the historical average. The yield spread of U.S. to global Treasuries moved further above the long-term average.

U.S. Treasury Yield Curve

- Month-over-month, the yield curve moved mostly higher, with front-end rates seeing the largest increase. Yields between six months and two years saw the largest increase by 15 bps or more. The only tenors to decline over the month were 20- and 30-year maturities which declined by at least five bps. The yield on the 10-year Treasury had intra-month volatility but ended the month where it began at 4.44%.

Any type of investing involves risk and there are no guarantees that these methods will be successful. Past performance is no guarantee of future results. Yields are subject to market conditions and are therefore expected to fluctuate.

Global Equity Market Fundamentals and Indicators

U.S. Cyclically-Adjusted Earnings Yield

Data is as of 06.30.2026. Sources: Bloomberg L.P.; Robert Shiller "U.S. Stock Markets 1871 - Present and CAPE Ratio."

VIX Index

Data is as of 06.30.2026. Sources: FactSet; Russell; Bureau of Labor Statistics; Sterling Capital Management Analytics.

Revenue to Firm Value

Data is as of 06.30.2026. Sources: FactSet; Russell; MSCI.

Dividend Yield

Data is as of 06.30.2026. Sources: FactSet; Russell; MSCI.

- The U.S. cyclically-adjusted earnings yield was little changed in June and remains low relative to history.
- Dividend and sales yields remain low across equity markets. U.S. yields remain lower than international markets, but emerging market yields have declined significantly in recent months.
- The CBOE Volatility Index (VIX), a measure of market-expected equity volatility, increased slightly in June but remains below the 20-year historical median. Lower VIX levels may be indicative of lower equity risk premiums.

Core Consumer Price Index (CPI): a measure of the aggregate price level in an economy, excluding certain volatile items.

Consumer Confidence Index (CCI): measures what consumers are feeling about their expected financial situation, whether that's optimistic or pessimistic.

Option Adjusted Spread (OAS): A bond's yield spread over comparable maturity government bonds, adjusted for any embedded options.

Real Disposable Personal Income: the amount of money that an individual or household has to spend or save after federal, state, and local taxes and other mandatory charges are deducted.

Real GDP: Real gross domestic product (GDP) is an inflation-adjusted measure that reflects the value of all goods and services produced by an economy in a given year, expressed in base-year prices.

Nonfarm payroll refers to the number of jobs in the private sector and government agencies. It excludes farm workers, private household employees, proprietors, non-profit employees, and actively serving military.

Revenue-to-Firm Value: Total Index Revenues of the past 12 months divided by the sum of equity market value and the value of total debt. This is a measure of total sales generated on the total value (debt plus equity) of firms in the index.

TIPS Breakeven: The inflation rate implied by the spread in yield between U.S. TIPS (Treasury Inflation Protected Securities) and nominal U.S. Government Bonds of equal maturity.

U.S. 3-Year Real Revenue Growth, Russell 3000 Non-Financials: For the Russell 3000 excluding financial firms, the percentage change in trailing 12-month inflation adjusted revenue over 12-month inflation adjusted revenue three years prior.

U.S. Cyclically Adjusted Earnings Yield: The 10-year average of annual, inflation adjusted earnings divided by the current inflation adjusted price of the S&P 500 index. This measure is the inverse of the Shiller CAPE Ratio.

YOY U.S. Productivity Growth: The year-over-year growth in real U.S. output produced per hour worked for non-farm workers.

CAPE Ratio: is a valuation measure that uses real earnings per share (EPS) over a 10-year period to smooth out fluctuations in corporate profits that occur over different periods of a business cycle.

Dividend Risk: refers to the risk of a stock's dividend being cut or eliminated, or to the risk to an option when a dividend is paid.

Dividend Yields: is a financial ratio that shows how much a company pays out in dividends each year relative to its stock price.

Eurozone: consists of those Member States of the European Union that have adopted the euro as their currency.

Municipal Yield: the annual return an investor receives on a municipal bond. It's calculated based on the bond's purchase price, coupon rate, and how long the investor holds the bond.

Treasury Yield: the interest rate the U.S. government pays on its debt securities, expressed as a percentage. It's also the annual return investors earn from holding a U.S. government security.

Capitalization/Style Returns: Capitalization/Style returns are based on the S&P Indexes. All values are cumulative total return for stated period including the reinvestment of dividends. The indexes used from left to right, top to bottom are as follows: S&P 500 Value Index, S&P 500 Index, S&P 500 Growth Index, S&P Mid Cap 400 Value Index, S&P Mid Cap 400 Index, S&P Mid Cap 400 Growth Index, S&P Small Cap 600 Value Index, S&P Small Cap 600 Index, S&P Small Cap 600 Growth Index. The S&P 500® Index is a readily available, carefully constructed, market-value-weighted benchmark of common stock performance. Currently, the S&P® Composite includes 500 of the largest stocks (in terms of stock market value) in the United States; prior to March 1957 it consisted of 90 of the largest stocks. The S&P Midcap 400 is designed to measure the performance of the middle capitalization sector of the U.S. equities market. This market capitalization weighted index was created in June of 1991 and consists of 400 domestic stocks from the NYSE, NASDAQ, and AMEX chosen for market size, liquidity and industry group representation. The S&P SmallCap 600 is designed to measure the performance of the small capitalization sector of the U.S. equities market. This index consists of 600 domestic stocks chosen for market size, liquidity, (bid-asked spread, ownership, share turnover and number of no trade days) and industry group representation. The S&P Style indices measure growth and value along two separate dimensions, with three factors each used to measure growth and value. The Growth factors are 3 Year Change in Earnings per Share over Price per Share, 3 Year Sales per Share Growth Rate, and Momentum. The Value factors are Book Value to price Ratio, Earnings to Price Ratio, and Sales to Price Ratio.

Important Information

Index Definitions & Disclosures

A Note on Indices: The volatility of an index varies greatly; all indices are unmanaged and investments cannot be made directly in an index. Indices are shown for illustrative purposes only and do not represent the performance of any specific investment. The indices selected by Sterling Capital Management to measure performance are representative of broad asset classes. Sterling Capital Management retains the right to change representative indices at any time.

The **Bloomberg Emerging Markets Hard Currency Aggregate Index** is a flagship hard currency Emerging Markets debt benchmark that includes USD-denominated debt from sovereign, quasi-sovereign, and corporate EM issuers.

The **Bloomberg Global Treasury Ex U.S. Hedged Index** is comprised of securities issued by developed ex. U.S. and emerging market governments. The index is hedged against constituent currencies versus the U.S. dollar.

The **Bloomberg Global Treasury Index** is a broad benchmark that tracks the performance of fixed-rate, local currency government debt of investment-grade countries, including both developed and emerging markets, excluding the United States. It's essentially the treasury sector of the Global Aggregate Index.

The **Bloomberg U.S. Aggregate Bond Index** is an unmanaged index composed of securities that are SEC-registered, taxable, and dollar denominated. The index covers the U.S. investment grade fixed rate bond market, with index components for government and corporate securities, mortgage pass-through securities, and asset-backed securities. It is not possible to invest in the Bloomberg U.S. Aggregate Bond Index, which is unmanaged and does not incur fees and charges.

The **Bloomberg U.S. Corporate High Yield Index** measures the U.S. corporate market of non-investment grade, fixed-rate corporate bonds. Securities are classified as high yield if the middle rating of Moody's, Fitch, and S&P is Ba1/BB+/BB+ or below.

The **Bloomberg U.S. Credit Index** measures the investment grade, U.S. dollar-denominated, fixed-rate, taxable corporate and government related bond markets. It is composed of the U.S. Corporate Index and a non-corporate component that includes foreign agencies, sovereigns, supranationals and local authorities.

The **Bloomberg U.S. Government Index** is comprised of securities issued by the U.S. government and its agencies with at least one year until final maturity.

The **Bloomberg U.S. MBS Index** covers the mortgage-backed pass-through securities of Ginnie Mae (GNMA), Fannie Mae (FNMA), and Freddie Mac (FHLMC). It is formed by grouping the universe of individual fixed rate MBS pools into generic aggregates.

The **Bloomberg U.S. Treasury Inflation-Linked Bond Index (Series-L)** measures the performance of the U.S. Treasury Inflation Protected Securities (TIPS) market. Federal Reserve holdings of U.S. TIPS are not index eligible and are excluded from the face amount outstanding of each bond in the index.

The **Bloomberg Commodity Index** and related sub-indices are composed of futures contracts on physical commodities and represents 22 separate commodities traded on U.S. exchanges, with the exception of aluminum, nickel and zinc.

Bloomberg L.P.: "Bloomberg®" and the Bloomberg indices are service marks of Bloomberg Finance L.P. and its affiliates, including Bloomberg Index Services Limited ("BISL"), the administrator of the index (collectively, "Bloomberg") and have been licensed for use for certain purposes by Sterling Capital Management LLC and its affiliates. Bloomberg is not affiliated with Sterling Capital Management LLC or its affiliates, and Bloomberg does not approve, endorse, review, or recommend the product(s) presented herein. Bloomberg does not guarantee the timeliness, accurateness, or completeness of any data or information relating to the product(s) presented herein.

The **Dow Jones Equity All REIT Index** is designed to measure all publicly traded real estate investment trusts in the Dow Jones U.S. stock universe classified as equity REITs according to the S&P Dow Jones Indices REIT Industry Classification Hierarchy. These companies are REITs that primarily own and operate income-producing real estate.

The **ISM Manufacturing Index** is a monthly indicator of U.S. economic activity based on a survey of purchasing managers at manufacturing firms nationwide.

The **ISM Manufacturing New Orders Index** is a key sub-index within the ISM Manufacturing Purchasing Managers' Index (PMI) that measures the month-over-month change in new purchase orders received by manufacturing firms.

The **ISM Non-Manufacturing Index** is an index that measures the economic condition and performance of service-based companies.
